HE WAS KNOWN AS A FEARLESS FIGHTER.

Trained From Childhood to Shoot Straight and Hate the British, He Never Lost Sight of His Antipathy -He Commanded the Boers at Ma-

Fretoria, March 28.-Gen. Joubert died Tuesday night at 11:30 o'clock. He had been suffering from a stomach complaint. The town is plunged into mourning for the true patriot, gallant general and upright and honorable gentleman.

Sketch of Joubert's Career. Gen. Pietrus Jacobus Joubert, com-mardant general of the Transvaal forces, better known as Piet Joubert, or "Slien petter known as Piet Joubert. of Shen Piet" (Slim Peter), was born about 63 years ago. He was descended from an old French Huguenot family which settled in South Africa many years ago. He was born in Cape Colony, but was taken by his parents, when seven years old, to the Orange Free State, where he was taught from early childhood to shoot straight from early childhood to shoot straight and hate the British.

and hate the British.

He is described as having been utterly feurless. Of schooling, he had but little, and he never saw a newspaper until he was 19 years old. In spite of this, his ambition prompted him to read the few broks he could obtain, and he succeeded in obtaining a fair knowledge of history and languages.

and languages.

In consequence of the acquisition of Natal by the British his family removed from Natal and settled in the Transvaal. Soon afterwards he became a burgher of the South African Republic and a daring fighter. It was claimed in his behalf that he could lead a body of men more successfully against hostile natives than any other man in the Transvaal. He came to be seened by the natives that any other man in the Transvaal. He came to be so feared by the natives that the knowledge that he was at the head of

their surrender.

It was during these wars with the natives, that Joubert became acquainted with Paul Kruger, and the two men became bosom friends. He was elected vice-president of the Transvaal in 1876, defeated Sir George Colley at Majuba hill in 1881, and acted as president of the republic in 1883-84, during Kruger's absence in Europe.

Gen. Joubert was always in favor of the use of force instead of diplomacy, and President Kruger, on several occasions, had great difficulty in repressing his hotheaded colleague, notably, in 1879, when

headed colleague, notably, in 1879, when Joubert, with Kruger and Pretorius was planning the rebellion to overthrow British rule in the Transvaal. The result was Majuba Hill and the practical independence of the Transvaal.

GEN. P. J. JOUBERT. It was Joubert who organized the army of the South African Republic, later on, dividing the country into 17 military departments, and each of these departments into smaller divisions, with command ants field cornets and lieutenants of various ranks in charge. According to the general's plans, every

man became a trained soldier without leaving his farm, and had his equipment ready at hand. To such a point of perfection was the system carried, that within 48 hours after the present war was declared, the Boer nation was under It was also due to Gen. Joubert that the

South African republics succeeded in massing the immense stores of munitions and provisions which stood them in such good stead during the onflict now in progress When the Jameson raiders were locked up ir Pretoria jail Joubert was strongly in favor of their immediate execution. It was not until Joubert and Kruger had been closeted together for a who's night

In spite of these characteristics, Joubert on some occasions, showed considerable regard for the usages of civilization. When the Boers raided British territory Bechuanaland, in 1884, Joubert was probably the only prominent Boer who refused to support the movement, and his

opposition resulted in the withdrawal of the Boers from the territory seized, as he threatened to resign unless he had no way, saying:
"I positively refuse to hold office under a government that deliberately breaks its covenants, and we have made covenants

In November last it was reported that Gen. Joubert had been killed in action and later reports said he was dangerously wounded and had to use a cart in order to follow the operations in the field. The circumstances of the death of Gen. Joubert are not explained in the dispatch from Lourenzo Marquez, which recalls the fact that Wm. Cox, a newspaper correspondent, who was recently released from imprisonment at Pretoria, and who has arrived at Durban, said Gen. was apparently suspected of half-hearted ness, and that his life would be in danger at the hands of the burghers if Pretoria

Will Probably be Succeeded by Gen. Botha, Commanding in Natal. London, March 29.-The Pretoria correspondent of the Daily Mail, telegraphing yesterday, says:

"Gen. Joubert died of peritonitis. The funeral will take place to-morrow (Thursday). The government is pleading with the widow to allow a temporary interment here, with a state funeral. Joubert always expressed a desire to be buried in a mausoleum built on his farm.

"His successor in the chief command will probably be Gen. Louis Botha, now commanding in Natal." The London Press on Joubert.

HON. PHILETUS SAWYER DEAD

From Wisconsin Passes Away at the Home of His Son.

Oshkosh, Wis., March 30 .- Former United States Senator Philetus Sawyer his son, E. P. Sawyer, in this city. He

EX-SENATOR PHILETUS SAWYER. had long been in ill-health, and his illness became serious Tuesday afternoon. The attack first affected the stomach, extending to other organs, the aggravated disorders finally resulting in his death. He was 84 years

Senator Sawyer had been confined to his bed only a day, and as he was subject to similar attacks, no particular alarm was felt. Members of the family were all absent except Mrs. Phil Sawyer, Jr., wife of his grandson. Asking her to remove his shoes and stockings, although he had none one, he settled back with a long sigh, and was dead before she realized it.

The funeral will probably be held next Sunday. Mr. Sawyer was a member of the Masonic and Odd Fellows' fraternities. As soon as his death was announced, flags were placed at halfmast all over the city, and expressions of sorrow were general.

Ex-Senator Sawyer was born in Rutland county, Vt., September 22, 1816. In 1847 he settled in this section, where he has lived ever since. He embarked in the lumber business, through from one to two millions.

THE HOSPITAL SHIP MAINE. Perfect in Appointment and Management-Tribute of a Noted British Surgeon.

London, March 30,-Sir William change of officials. MacCormick, president of the Royal college of surgeons, who recently returned from South Africa, describes, in the Lancet, a visit which he paid to the American hospital ship Maine, Feb-

ducted him. He says: "Everything that could be desired infortunately, the ship itself is not democrats and two independents. what could be described as suitable

Milliken, republican, for auditor, over Boyden, fusion, received 3,143 majerity.

TOO GOOD A GOVERNMENT.

So the Men Railied and Defeated the

Women Candidates. Topeka, Kas., April 3.-The election for city offices in the town of Beattie, in Marshall county, yesterday, was a centest between men and women, and the men won. A ticket composed entirely of women was elected a year ago. The womn officers, headed by Mrs. Elizabeth Totten, mayor, were candidates for re-election. Aside from the sex and personality of the candidates, the principal issue was whether joints should be allowed to run, the men favoring a wide-open policy. The men rebelled against the strict probibition enforced by the women, and the entire men's ticket was elected with the exception of clerk, one councilman

and marshal. The latter is a man. Republicans Carry Cleveland.

Cleveland, O., April 3.—The returns of the election indicate that Thomas H. Pell, republican candidate for school director, is elected, over Samuel Briggs, democrat, and Arthur F. May, which he amassed a fortune estimated non-partisan, by a plurality that will reach 8,000. Bell received almost as many votes as the other two candidates combined. The republicans also elect four members of the school council, police judge, police clerk and two magistrates by majorities running above 10,000. They will retain control of the city council. This is not a

THE CUBA OF THE PRESENT.

As Viewed by the Subcommittee of the Senate on Their Recent Visit.

Washington, April 2 .- The subcommittee of the senate, consisting of enators Platt, of Connecticut, Aldrich and Teller, which went to Cuba for the purpose of personally investigating conditions on the island with a view to intelligent action by congress with respect to Cuba, has returned to Washington. Senator Platt, chairman of the subcommittee, last night authorized the following statement concerning *he subcommittee's observations:

Made Biligent Inquiry. "We inquired as carefully and comtime at our disposal into the condition of the people of the island, their needs and the prospect of the estabthe people of Cuba. We were in Haana in all five days. We also visited the provinces of Pinar del Rio and very much wished. We saw and conand leading men from all portions of the island, men who represented different ideas and interests from intense and return with a much better underand the steps to be taken in its solution than we could possibly obtain otherwise than by a personal visit.

Anxious for Independence. "It may be said of all classes in Cuba that they are looking to the establishment of an independent government, a Cuban republic. A few are impatient, and wish for immediate and complete independence. Others are less impatient, believing that sufficient time should be taken to avoid mistakes and to set up the rew government upon such a firm basis as to insure its success and permanence. A Test of Self-Governing Capacity.

"All are looking forward to the municipal elections that are to take place in the latter part of May, regarding such elections as the first step toward the establishment of the new government. Much will depend upon the result of these elections. If they take place without disorder and good offirials are elected, that will go far to prove the capacity of the people for self-government, and steps can be taken without great delay for further progress in that direction. The problem is complicated by the fact that Democrats Will Control the Council. | necessities or its responsibilities. The Monetary Problem.

A HISTORICAL REVIEW.

Influence That Money Has Had Upon the Public Welfare from Time Immemorial.

"The monetary systems of the present day are an historical development," says Alexander Del Mar, in his new work on the "History of Money in America from the Earliest Times to the Establishment of the pletely as we could, with the limited | Constitution;" they descend from the principles enunciated in the great cumstances connected with the Spanlishment of an independent, satisfac- ish conquest of America; the Spanish ory and stable government by and for free coinage act of 1608; the British free coinage act of 1666, and the invention of the coinage and printing presses. It would, therefore, seem versed with a great many prominent author of the present work has consulted many treatises relating to monetary systems he has never yet met with one which evinced the least ments. Some of them contain inmonetary issues. These, when care- the last decrease in circulation. fully collated, are of value to the tor. But, for the most part, books on money are filled with doctrines, or worse yet, mere dilutions of doctrines, without history or experience to support them-doctrines based on words, on definitions, on figments of the

> mischievous and hurtful. "The legal, political and social character of money; its influence upon the public welfare; the prominent place the countless experiments that have struggles that have centered upon its control, and the learning that has been devoted to its principles by philosophers, legislators and jurists, ment some better preparation than doctrines. The father of the inductive method was born more than three centuries ago; yet it is only now that his method is being applied to the study of money.

mind, false, worthless, misleading,

"The mixed moneys case decided the public welfare that its dimensions and regulated, by the state. The Roman law, the common law and the statutes all upheld it; it demonstrated that the state alone had a right to issue money and to decide of what substances its symbols should be made, whether of gold, silver, brass or pewter. Whatever the state decided to be money was money. That was the gist of it.

"This decision greatly alarmed the merchants of London, and for more than half a century after it was enunciated they were occupied with efforts to defeat its operation. In 1639 they succeeded in getting the matter before the star chamber; but their plans were rejected. The revolution of 1648 postponed their projects. The restoration of 1660 revived them. Their final success dates from

Although the author does not dis-

yet, says the National Watchman, the principles laid down in the celebrated mixed money case, to which he frequently adverts, and which he regards as sound legal doctrine, not to be the atrocious act recently passed by the house of representatives and the senate is in its essence unconstitutional and void. It surrenthe retirement of money to the banks. of its indebtedness in gold metal, whether the same is current in coins at the date of payment or not. In payable in money of the day of contract, instead of in money of the day of payment. This principle has upwards of 2,500 years. It divided to do it, and you know nothing about parties in Rome during the commonwealth; it divided them during the empire; it divided them during the middle ages; it divided them during the renaissance; it divided them durat midnight, and a rescue party start- ing the last century; and it divides them yet. Hundreds of works have been written on the subject and none more learned or more replete with sound doctrine than those which were written during the sixteenth and seventeenth centuries. During this period many legal decisions were rendered on the subject, all of them laying down the principle in unmisand impracticable of fulfillment. Germany all decided the same way. debtor to pay his debt in the money which happened to be current in his country on the day his debt was due.

The great writers of international

"OUR PLAIN DUTY."

Has a Flexible Meaning in the Mind of Our Wobbly President-Right Makes Might.

Only a few months ago, the president in his message to congress declared that "our plain duty is to abolish all customs tariffs between the United States and Porto Rico, and give her products free access to our markets." Now a "plain duty" involves an obligation; it has to do with justice and right; it touches the conscience. Abraham Lincoln declared that "right makes might;" duty was such an important matter in his eyes that he was prepared to follow wherever it led. "Let us to the end," he said,

"dare to do our duty as we understand Congress, however, at the bidding of our protected interests, has seen proper to measure our duty by the tariff schedules. "Let us do 85 per cent. of our duty," say the republicans of the house, "and leave the rest to the sugar trust and the growers of Connecticut tobacco." What Mr. McKinley regarded as a "plain duty" has resolved itders both the issuance of money and self in a duty of 15 per cent. on the products of Porto Rico entering our markets.—Atlanta Constitution.

Tells About Her Daughter's Illness and How She was Relieved-Two Letters to Mrs. Pinkham.

"Mrs. Pinkham:-I write to tell you

about my daughter. She is nineteen

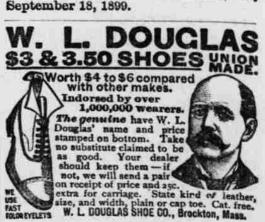

years old and is flowing all the time.

and has been for about three months. The doctor does her but very little good, if any. I thought I would try Lydia E. Pinkham's Vegetable Compound, but I want your advice before beginning its use. I have become very much alarmed about her, as she is getting so weak."-MRS. MATILDA A. CAMP, Manchester

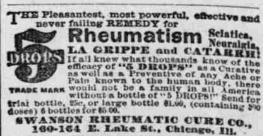

Mill, Macon, Ga.,

May 21, 1899.

"DEAR MRS. PINK-HAM:-It affords me great pleasure to tell you of the benefit my daughter has received from the use of Lydia E. Pinkham's Vegetable Compound. After beginning the use of your medicine she began to mend rapidly and is now able to be at her work. Her menses are regular and almost painless. I feel very thankful to you and expect to always keep your Vegetable Compound in my house. It is the best medicine I ever knew. You have my permission to publish this letter if you wish, it may be the means of doing others good."-MRS. MATILDA
